Dublin, Ireland

SUMMARY

Gameplay programmer with strong C# and Unity expertise, focused on building responsive, polished gameplay systems. Proven ability to deliver under pressure through game jams and collaborative development.

EDUCATION

- TUD Grangegorman** Sep. 2024 – Nov. 2025
MSc Creative Digital Media & UX - First Class Honours *Grangegorman, Dublin*
- Focused on UX research, interaction design, and gameplay-focused prototyping.
 - Developing thesis project *It Ain't That Deep*, a 2.5D underwater exploration game blending game feel and user experience design.
- TUD Tallaght** Sep. 2019 – May 2023
BSc in Computer Science with Software Development *Tallaght, Dublin*
- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Software Engineering, Web Development.

TECHNICAL SKILLS

Languages: C#, C++, Python, JavaScript, HTML, CSS
Engines & Frameworks: Unity (2D & 3D), Unity Netcode for GameObjects (NGO), Ren'Py, React Native
Tools & Software: Git, GitHub, Firebase, FMOD, Figma, Aseprite, Adobe Suite, DaVinci Resolve
Concepts: Gameplay Systems Design, Object-Oriented Programming (OOP), UI/UX Implementation

EXPERIENCE

- Freelance Web Development** Feb. 2025 – May. 2025
TU Dublin Nutrition Societies Conference *Dublin, Ireland*
- Designed and developed a static conference website used for event promotion, registration info, and speaker listings.
 - Collaborated with academic staff to iterate on layout, content, and responsive design across devices.
- Application Development Intern** Feb. 2022 – Aug. 2022
Workday *Smithfield, Dublin*
- Analysed, diagnosed, and resolved critical production bugs in a large-scale enterprise application, contributing to improved software quality and stability.
 - Actively participated in an agile development environment, contributing to sprint planning, daily stand-ups, and peer code reviews.

PROJECTS

- It Ain't That Deep (Thesis Project)** | *Unity, C#, Figma, FMOD, UX Research* Feb. 2025 – Present
[Project Page](https://github.com/Jibbyie/Dolphin-Simulator/tree/main/ItAinThatDeep) | github.com/Jibbyie/Dolphin-Simulator/tree/main/ItAinThatDeep
- Programmer on a 2.5D underwater exploration game emphasizing environmental storytelling, first-person shooter combat, and dialogue-based interaction design using Pixel Crushers.
 - Designed and implemented core gameplay systems, including player controls, quest management, combat mechanics, and dynamic AI behaviors.
- Rizztaurant (Visual Novel)** | *Ren'Py, Python* Jan. 2023 – Present
[Project Page](https://github.com/Jibbyie/RizztaurantDemo) | github.com/Jibbyie/RizztaurantDemo
- Co-developer and programmer for a comedic visual novel, implementing a persistent branching dialogue system and mini-games.
- Hacking Healthcare Hackathon** | *AWS, Python, Microbit, Firebase* Sep. 2022 – Oct. 2022
[Personal Linkedin Post](#)
- Collaborated on creating a hardware/software prototype using Microbit and Firebase, enhancing patient convenience by 50% through SMS notifications for dosage recommendations and blood-testing reminders.
 - Achieved 4th place out of 8 teams, showcasing the prototype's effectiveness and innovative solutions.

GAME JAMS

Lasso Lass (GMTK Game Jam 2025) | *Unity, C#, FMOD*
jibbyie.itch.io/lassolass | github.com/Jibbyie/GMTK2025.GameJam

4 Days, Aug. 2025

- Served as the lead programmer on a 6-person team, responsible for implementing all gameplay mechanics from concept to completion within the 96-hour deadline.
- Single-handedly designed and developed the core lasso mechanic, featuring robust, adaptive input detection and advanced geometric algorithms (line-intersection, point-in-polygon) for object interaction.
- Collaborated with designers, artists, and composers to integrate gameplay systems with cohesive audiovisual design.

Memory Dive (Unpolished Game Jam) | *Unity, C#*
jibbyie.itch.io/memorydive | github.com/Jibbyie/Unpolished-GameJam

1 Week, Jul. 2025

- Served as the programmer on a 3-person team, developing all gameplay systems (AI with patrol and chase logic, stealth system) for an underwater stealth-horror game.
- Gained foundational experience in interdisciplinary collaboration, integrating assets from an artist and composer while managing scope to deliver a finished game on time.

GAMEPLAY PROTOTYPES & DEMOS

A collection of small-scale, playable tech demos developed to learn specific gameplay mechanics.

- **Slimey (Unity):** [Itch.io](https://itch.io) | [Source Code](#) - Physics-based 2D grappling hook demo focused on momentum and game feel.
- **Lights Out (Unity):** [Itch.io](https://itch.io) | [Project Page](#) - Horror prototype creating suspense through environmental manipulation and randomized events.
- **Knock Knock (Unity):** [Itch.io](https://itch.io) | [Project Page](#) - Horror prototype exploring tension through audio distortion and randomized 'mimic' characters.
- **2D Multiplayer Sandbox (Unity, NGO):** [Project Page](#) | [Source Code](#) - Server-authoritative prototype focused on health sync, respawn flow, and network ownership.

VOLUNTEERING

Design Team Volunteer, PyLadiesCon 2025
[About PyLadiesCon](#)

Jul. 2025 – Present

- Selected to join the design team for the inaugural PyLadiesCon, a global event focused on diversity and accessibility in Python communities (Dec. 5–7, 2025).
- Collaborating with an international volunteer team on early-stage planning for UX, branding, and community-facing materials.

Event Volunteer | *J-Con, Comic-Con, Shurikon, Tidy Towns*

2018 – Present

- Supported event logistics, managed attendee check-ins, and assisted with panel discussions and guest services to ensure a smooth and engaging experience for participants.

Youth Club Leader | *Foroige Youth Club*

2019 – 2022

- Planned and facilitated weekly events and workshops for young people focused on team-building, digital literacy, and creative expression.

TALKS & COMMUNITY INVOLVEMENT

Speaker, Run for the Border | *National Game Dev Meetup*
[Personal Linkedin Post](#) | [Event Linkedin Post](#)

Jun. 2025

- Selected as a speaker at this cross-border gathering of over 200 game developers from across all of Ireland, supported by Creative Europe, Hypixel Studios, and others.
- Presented "Staying in Love With Game Dev", engaging with an audience of developers, students, and indie creators.

HOBBIES

Indie Game Development, Bodybuilding, Running, Video Editing, Digital Pixel Art
